As we turn the pages of time to welcome the month of Bhado, we find ourselves surrounded by the rhythm of rain and renewal. Bhado, often associated with reflection and abundance, invites us to pause amidst our pursuits and appreciate the quiet beauty of creation and thought.

This edition, much like the season itself, is a celebration of new beginnings and deeper understanding. It carries within it the voices of our students and faculty — voices that question, express, and inspire. Each contribution represents the diversity of perspectives that make our campus a vibrant space of learning and imagination.

We express our sincere appreciation to all contributors, mentors, and readers whose encouragement keeps our creative spirit alive. May this Bhado Edition inspire you to pause, reflect and reconnect with the beauty around and within.

SRI-KRIDANGAN – the sports segment of **SRIVAANI**, embodies the vibrant athletic spirit of **Srinath University**. The segment highlights the energy, enthusiasm, and achievements of students who bring glory to the institution through their sporting excellence. We believe in holistic development, where education goes beyond academics, and sports play a vital role in shaping discipline, teamwork, and leadership. **SRI-KRIDANGAN** reflects this vision by showcasing interdepartmental tournaments, championships, and moments of

triumph that inspire students to strive for excellence both on and off the field.

Smash, Spin, Spirit : The Pulse of Sports at Srinath University

At **Srinath University**, sports are not just a co-curricular activity, they are a celebration of energy, teamwork, and resilience. The University firmly believes in holistic development, where physical fitness complements academic excellence. Our campus vibrates with enthusiasm across various sports — from cricket and football to badminton, athletics, and more. Even during leisure periods, students actively engage in recreational games, making the sports arena a lively hub of interaction and relaxation. Among these, **TABLE TENNIS** holds a special place. The fast-paced rallies, sharp reflexes, and sheer precision of the players make every match a thrilling spectacle. The University's Interdepartmental Tournament has become one of the most awaited events, inspiring students to showcase their agility, focus, and sportsmanship. Sports at **Srinath University** go beyond the boundaries of the playground, they instill leadership, discipline, and a winning attitude. With every serve, spin, and smash, our students not only chase victory but also embrace values that shape them into confident, well-rounded individuals ready to excel in every arena of life.

NSS Induction Ceremony 2025

Srinath University, Adityapur, Jamshedpur, witnessed an inspiring morning on September 8, 2025, as the **NSS Induction Ceremony** unfolded in the University Auditorium. The three-hour event was filled with zeal, commitment, and the true spirit of service. The ceremony was graced by the esteemed presence of **Mr. Montu Patar**, District Youth Officer, Mera Yuva Bharat (My Bharat), Jamshedpur, Ministry of Youth Affairs & Sports, Government of India, whose words of encouragement set a motivating tone for the newly enrolled volunteers. A highlight of the day was the badge distribution ceremony, where new NSS volunteers received their badges – a symbolic representation of the responsibilities they will now shoulder with dedication and pride. The moment not

only instilled a sense of honor but also marked the beginning of their journey towards social responsibility and community service. The program was made memorable by the tireless efforts of the organizing team under the able guidance of **Ms. Shalini Ojha**, NSS Coordinator. Her leadership and commitment, along with the enthusiastic participation of the volunteers, ensured the smooth execution of the event. The ceremony concluded with renewed energy and enthusiasm, reminding every participant that NSS is not just a program, but a movement of youth power dedicated to selfless service and nation-building. This Induction Ceremony is not merely an event but the beginning of a new chapter where young hearts pledge to give back to society, proving once again that the strength of the nation lies in the hands of its youth.

Dr. Vikash Kumar Sinha
Asst. Prof., Dept. of Mathematics

Shri Sukhdeo Mahato
(Hon'ble Chancellor)

Heartiest Congratulations to Dr. Vikash Kumar Sinha for his remarkable publication in the Physica Scripta Journal (Scopus Q2, SCI indexed). His achievement reflects the spirit of excellence that **Srinath University** stands for. May he continue to achieve greater milestones and contribute meaningfully to the world to knowledge.

Congratulations

Dr. Vikash Kumar Sinha

Asst. Professor, Dept. of Mathematics
for Publication a "Physica Scripta Journal, indexed in Scopus (Q2), SCI (I.F. 2.6)"

TITLE :
A new variational iteration method for solving reaction-diffusion equations
DOI Link: <https://doi.org/10.3390/math11040935>

Srinath University proudly acknowledges the remarkable achievement of Dr. Vikash Kumar Sinha, Assistant Professor, Department of Mathematics, for his publication in the Physica Scripta Journal (Scopus Q2, SCI indexed). The University appreciates his dedication and contribution to advancing research in reaction-diffusion equations through innovative methodologies. This accomplishment reflects the strong research culture nurtured by the Research & Incubation Cell of **Srinath University**. We congratulate Dr. Sinha and his team for bringing academic recognition to the institution. **Srinath University** remains committed to promoting excellence in research, innovation, and academic growth.

Prof. (Dr.) S. N. Singh
(Hon'ble Vice-Chancellor)

I heartily Congratulate, Dr. Sinha for his research work which brings immense pride to the **Srinath University**. Such accomplishments strengthen our mission to nurture innovation and global recognition.

Dr. Mousumi Mahato
Registrar Incharge

I extend my sincere appreciation to Dr. Vikash Kumar Sinha for this remarkable publication. His commitment to excellence and contribution to the field of mathematics reflect the University's vision for academic growth and quality research.

Mr. J. Rajesh
Dean, Administration

Heartiest congratulations to Dr. Vikash Kumar Sinha on this outstanding research publication. His success showcases the diligence and academic discipline that inspire both faculty and students alike.

Dr. Bhavya Bhushan
Associate Dean, Academics

I extend my sincere appreciation to Dr. Sinha for his remarkable publication in a leading journal. His work stands as a testament to the spirit of innovation and excellence that **Srinath University** nurtures in its research community.

Dr. Shailesh Sarangi
Dean Research

I Congratulate, Dr. Sinha, on his publication in a prestigious journal. Such achievements enhance the academic prestige of **Srinath University** and motivate our academic community to pursue excellence.

Engineering the Future : School of Engineering

In the industrial heartland of Jamshedpur, where technology fuels progress and innovation drives change, the **School of Engineering** at **Srinath University** stands as a dynamic powerhouse of learning, creativity, and discovery. Here, the engineers of tomorrow are shaped with the knowledge, confidence, and curiosity to lead India's technological revolution.

A Hub of Innovation and Discovery

The **School of Engineering** is more than a department—it's a hub of applied learning and innovation, where ideas become impact. With a vision to cultivate skilled, ethical, and industry-ready engineers, the School blends rigorous academics with hands-on experience, research, and real-world exposure. Students are not just taught to solve problems; they are empowered to design the future.

Programs that Empower

The School offers a complete academic pathway for aspiring engineers, from foundational to advanced levels of technical education:

- **3-Year Diploma Programs** for students seeking early exposure to engineering fundamentals and practical skills.
- **Bachelor of Technology (B.Tech):** A 4-year undergraduate program offering diverse specialisations across modern engineering disciplines.
- **Master of Technology (M.Tech):** An advanced program focusing on research, innovation, and leadership in engineering and technology.

A Spectrum of Disciplines, One Vision : Excellence

- **Mechanical Engineering:** Where design meets innovation, this department trains students in manufacturing technologies, robotics, and energy systems.
- **Civil Engineering:** The foundation of modern infrastructure. Students gain expertise in structural analysis, geotechnical engineering, and sustainable construction.
- **Computer Science & Engineering (CSE):** The digital core of the university. Students explore artificial intelligence, machine learning, software engineering, and cybersecurity.
- **Electronics & Electrical Engineering (EEE):** This integrated department empowers students to explore the world of electronics, circuits, control systems, communication, and power technology.
- **Data Science:** The newest and most exciting frontier of technology. This discipline trains students to extract insights from data through analytics, programming, and artificial intelligence.

Signature Events : TechRoot and Tarush

Innovation and creativity come alive every year through two major events organised by the **School of Engineering**:

- **TechRoot**: The annual technical festival, celebrating invention, design, and innovation. It brings together the brightest minds through robotics challenges, coding contests, model exhibitions, and project demonstrations.
- **Tarush** : The cultural and technical fest, where technology meets creativity. It showcases the multifaceted talents of engineering students through competitions, performances, and exhibitions, fostering teamwork, leadership, and a vibrant campus culture.

Engineering a Smarter, Sustainable Future

The **School of Engineering** is committed to shaping a sustainable, tech-driven future. Whether through renewable energy projects, AI research, or data-driven innovation, **Srinath University's** engineers are developing solutions for a smarter, greener, and more connected world.

Words from the Head

The **School of Engineering** is committed to shaping a sustainable, tech-driven future. Whether through renewable energy projects, AI research, or data-driven innovation, **Srinath University's** engineers are developing solutions for a smarter, greener, and more connected world.

Mentorship and Expertise

The **School of Engineering** boasts a team of experienced and dedicated faculty members who bring academic excellence and industrial expertise to the classroom. They act as mentors and guides, ensuring students not only learn but also innovate with purpose. Their mentorship encourages curiosity, collaboration, and confidence among students.

Jubilee Park : The Green Jewel of Jamshedpur

Jubilee Park, located in the heart of Jamshedpur, is one of the most beautiful and well-planned parks in India. Spread over 200 acres, it was gifted by the TATA Steel to the citizens on the city's 50th anniversary. The park is often compared to the Brindavan Gardens of Mysuru for its stunning layout and charm.

It features lush green lawns, colourful flower beds, sparkling fountains, and a serene lake that attracts visitors all year round. The musical fountains and

light shows in the evening make it a popular spot for families and tourists alike.

The park also houses the famous Rose Garden, Nicco Amusement Park, and Jayanti Sarovar, adding to its beauty and recreational value. During Founder's Day (March 3rd), the entire park glows with thousands of lights, celebrating the legacy of J.N. Tata.

Jubilee Park is not just a leisure spot, it symbolizes the harmony between nature, industry, and community, making it the true pride of Jamshedpur.

Sir Dorabji Park : A Tribute to Vision and Nature

Sir Dorabji Park, located in Northern Town, Jamshedpur, is a beautifully landscaped green space dedicated to Sir Dorabji Tata, the elder son of J.N. Tata and the second Chairman of Tata Steel. The park serves as a peaceful retreat for citizens amidst the industrial city's hustle and bustle.

Well-maintained lawns, colourful flower beds, and shady trees make it a perfect spot for morning walks and relaxation. The centrepiece of the park is the elegant statue of Sir Dorabji Tata, which stands as a symbol of his immense contribution to the growth of Jamshedpur and Indian industry.

The park is known for its calm atmosphere, neat pathways, and seasonal flower displays that attract both locals and visitors. It reflects the TATA philosophy of balancing progress with nature.

Sir Dorabji Park continues to inspire generations, reminding everyone of the visionary leadership and community spirit that shaped the city's foundation.

The City's Green Heart

Bhatia Park : The Green Escape of Kadma

Bhatia Park, located in Kadma, Jamshedpur, is one of the city's most loved recreational spots. Nestled along the banks of the Subarnarekha River, the park offers a refreshing blend of natural beauty and calmness.

Its wide green lawns, vibrant flower gardens, and shaded walking paths make it an ideal place for morning walks, picnics, and family outings. The gentle breeze from the river adds to its serene atmosphere, making it a perfect escape from busy city life.

Well-maintained by Tata Steel, Bhatia Park reflects Jamshedpur's commitment to preserving greenery amidst industrial growth. The park also hosts seasonal flower shows and community gatherings, adding to its lively charm.

With its peaceful surroundings and scenic views, Bhatia Park stands as a symbol of harmony between nature and urban living, attracting visitors of all ages throughout the year.

Nature Trail, Sonari : A City's Breath of Fresh Air

Jungle Trail Park, also known as Nature Trail Park, is a serene and picturesque oasis that offers a peaceful escape from the hustle and bustle of everyday life. The meticulously manicured green spaces adorned with vibrant flowers create a tranquil atmosphere, making it an ideal spot for picnics, photoshoots, and leisurely walks. Visitors can enjoy the calming melody of rustling leaves while taking in the beautiful views from the park's bridges.

The Nature trail has been designed on the concept of ancient forest names i.e Shrivana, Mahavana and Tapovana. The Jamshedpur nature trail houses several clusters of native species of trees planted as grooves with total tree plantations of around 21000. Meandering along the park is a 2.5 km long walking trail for nature enthusiasts interspersed with enough resting spaces.

In our **Shakshatkar** segment, entrepreneur **Ravi Ranjan Singh**, Founder and President of Jharkhand's Entrepreneurs Association (JEA), Startup Enabler, Mentor, Entrepreneur, Director of Wow! Zindagi, and Partner at Vedanta-AI, shared his insights on innovation and entrepreneurial growth. He emphasized the importance of empowering startups through collaboration, mentorship, and sustainable business practices. His story stands as an inspiring example of leadership, perseverance, and commitment to driving positive change through entrepreneurship.

Q *Every entrepreneur starts with an idea — how did your first business idea come to life?*

A My first business idea was born out of a very personal and local problem. When I shifted to Ranchi from my hometown in 2018, I suffered a lot trying to find a reliable electrician for a small assignment. This led to a crucial realization: there was a significant gap in the market for organized, trustworthy, online handyman services.

We converted this frustration into a solution and started HomeCareIndia. The idea was not just to connect, but to offer a verified, quality-controlled service. This concept was quickly recognized: it was selected by the State Evaluation Board of the Jharkhand Government, incubated at ABVIL, and recognized by Startup India, Startup Jharkhand, and MSME. Solving that one small personal problem laid the groundwork for my first recognized venture.

Q *Entrepreneurship often involves uncertainty. How did you handle the fear of failure and financial risks?*

A I've always believed that uncertainty and failure are simply non-negotiable parts of life and business. The critical factor is not if you will face them, but how you handle them and what you learn.

Initially, I must admit, I wasn't deeply concerned with complex financial risk modeling. I trusted my

decision, took the leap, and started. That early confidence was crucial. However, as time went on, I made mistakes and had setbacks. These experiences became my strongest foundation. Now, I understand that the true way to handle financial risk is through self-correction and learning from every misstep. This practical, real-world education is far more valuable than any theoretical knowledge.

Q *How do you maintain resilience and motivation when things don't go as planned?*

A I consider myself a hardcore positive thinker. My philosophy is simple: if something goes wrong, it means there is an unexplored chance to do something better. How you react to the circumstances around you defines your attitude, your perception, and ultimately, your outcome. I believe you are entirely responsible for your attitude.

My motivation draws immense strength from the Bhagavad Gita. Its teachings gave me a powerful foundation to maintain a positive mindset and to find clarity and purpose in every situation, especially when plans derail. It is this inner strength that fuels my resilience.

Q *What role did mentorship and networking play in your growth as an entrepreneur?*

A In the earlier days, accessible mentorship in Jharkhand was scarce. I had to learn the basics through my own mistakes. However, I gradually began to connect with people within my community and profession. This eventually led me to understand the true power of Mentorship and Networking.

The COVID-19 pandemic, ironically, was a turning point. While the world was shut down, I used that time to immerse myself in exploring and learning new things about the entrepreneurial ecosystem. It was during this period of crisis that I initiated "Project Grihini," a venture designed specifically for

Shri Ravi Ranjan Singh

Founder and President
Jharkhand's Entrepreneurs Association (JEA)

Q *What inspired you to step into entrepreneurship, and how did your journey begin?*

A After 14 impactful years in the Sales and Marketing domain, I reached a point where I realized I was missing a larger purpose. My journey began with a profound inspiration from a former employer's simple yet powerful insight: "If you only do a job, you will feed your family alone. But if you create a solution to a widespread problem that can be converted into a mass-scale business, it will feed many more families who gain employment in your company." This philosophy—the power of creating jobs and widespread value—became my core driver. I stepped out of a stable career to embrace the role of a job creator, and that is how my entrepreneurial journey truly began.

women empowerment, successfully adding almost 350 women to our portal. This experience underscored the value of networking and community building—the very factors that helped me convert a crisis into an opportunity for impact.

Q *As a leader, how do you build and maintain a motivated, innovative team?*

A In my view, a true leader is someone who does first and shows the path to others. While I don't focus on the title of "Leader," I understand what people want and need from me.

My philosophy is rooted in a simple but powerful principle: "Give the same respect and love to others that you expect from them." For me, every single person in the organization is equally important, from the CEO to the office assistant. If you want to understand this reality, just think about a CEO's day without the smooth functioning of their most foundational staff. To build a motivated team, you must create a culture of mutual respect and ensure everyone feels their contribution is vital.

Q *How do you see Jharkhand's startup ecosystem evolving in the next few years?*

A We must first be clear on what an "Ecosystem" truly is. Many entrepreneurs mistakenly believe that only government support defines the ecosystem, which is a limiting perception.

An ecosystem is built by the dedicated people, groups, organizations, and institutions that are committed to the upliftment of startups. The government is an essential supportive system, but the true ecosystem emerges from the density of these dedicated individuals and institutions. I believe the future of Jharkhand lies in the strengthening and integration of these non-governmental players. In the next few years, we will see a significant evolution as these groups connect more formally, creating a vibrant, supportive environment that will foster robust, large-scale ventures.

Q *What role is JEA playing in empowering local entrepreneurs and youth of Jharkhand?*

A Currently, there is a clear deficit in the cohesive startup ecosystem within our state. We, at the Jharkhand Entrepreneurs Association (JEA), are striving to bridge this gap by actively connecting people, groups, organizations, and institutions to cultivate a truly favorable state for entrepreneurship.

Our core mission is to shorten the learning curve for local founders. All the knowledge and hard-earned experience that we, as JEA members, have gained over the years—the successes, the mistakes, and the market insights—we want to pass on. If our collective experience can effectively shorten a four-year entrepreneurial struggle into a two-year journey, that will be the greatest achievement for all of us as JEA Members and a huge win for the state.

Q *How important is failure in the process of success?*

A Failure is paramount. It is what makes you a learner and keeps you humble. If you

achieve success too easily and too quickly, there is a high chance you will lose it just as fast, precisely because you haven't been through the rigorous process necessary to learn the fundamental lessons.

In my view, success is not a destination, but a daily process of being better than before. While you have milestones, if you haven't learned from and enjoyed the process and the journey, you haven't earned anything truly lasting. Failure is the necessary instructor in this classroom of continuous improvement.

Q *What mindset or habits have been your biggest strength as an entrepreneur?*

A My biggest strength can be summarized in a single phrase: A Positive Mindset.

In daily life, challenges are inevitable, regardless of whether you are a student, an employee, an entrepreneur, or a family person. What defines you, and how much that problem will affect you, is how you choose to approach your difficulties and turn them in your favor by responding positively. This unwavering commitment to seeing the good, finding the opportunity, and responding constructively is what keeps me moving forward every single day.

Q *If you could give one message to young aspiring entrepreneurs from Jharkhand, what would it be?*

A My message is simple and essential: Don't pursue entrepreneurship just for a title, fame, or money.

These things are fleeting and will perish one day. Instead, start because you want to be a changemaker—because you are solving a problem that appeals to the masses and can genuinely create a positive shift in your community or industry. In the hardest of days, when everything seems to be going wrong, this core motivation—this purpose to solve the problem—will be the only thing that stays with you and gives you the strength to never give up.

Our **Sri Hunar** segment celebrates the diverse talents of our university community, highlighting the creativity, skills, and passions of faculty members, students, and staff. From artistic expressions to unique hobbies and achievements, it shines a spotlight on the exceptional individuals who make our campus vibrant and inspiring. Dive in to discover the inspiring stories and hidden abilities that make our community truly exceptional!

*Poetry is a reflection of our deepest emotions, a conduit for thought, and a canvas upon which the soul paints its truths. In this edition of Sri Hunar, we proudly showcase Sohan's poetic journey, a testament to the creative spirit flourishing within the halls of **Srinath University**. His verses reveal a keen sensitivity to the subtleties of human experience, blending emotion, imagination, and reflection into lines that linger in the reader's mind. Sohan's words unfold with quiet grace, exploring themes of hope, loss, and the inner stirrings of the soul through carefully crafted imagery and rhythm. His mastery of language reflects both his literary skill and his deep devotion to the art of poetic expression. Through his work, he invites readers to pause, contemplate, and discover beauty in the unseen and the often overlooked.*

Sohan Mohanty

Student of B.A. English (2023-26)

Echoing Tears

A war began with the passing time,
With evading humanity and creeping crime.
Woe of all living creatures,
No relief from heavenly teachers.

All the land was smeared in red,
None escaped, the tears are dead
Evil reigned through endless years,
Enslaving souls in chains of tears.

The prophecy spoke: He shall come,
The end of cruelty will be won.
The Tenth, the savior, rose to defend,
But nothing on earth remained to mend.

A Silent Journey

A lone leaf clung to its branch so high,
A fleeting dance before saying goodbye.
The wind whispered low in a gentle tone,
And the leaf floated down, to its journey home.

With twirling steps, it kissed the ground,
A golden hue on the grass was found.
Its fragile form, a delicate design,
A tiny traveler tracing a winding line.

Career Modelling for Freshers

Career modelling is a strategic process that helps individuals—especially students—understand, explore, and plan their career paths by visualizing the steps, skills, and experiences needed to reach their professional goals. It involves mapping out different career options, identifying required competencies, and creating a roadmap from education to employment.

What Does Career Modelling Involve?

1. Self-Assessment

- o Interests, strengths, values, and personality.
- o Tools: MBTI, Holland Codes, career quizzes.

2. Career Exploration

- o Researching various career options based on assessment.
- o Looking into job roles, industries, growth opportunities, and future relevance.

3. Skill Mapping

- o Identifying the skills needed for a desired career.
- o Understanding gaps and how to fill them (courses, internships, certifications).

4. Pathway Visualization

- o Creating a step-by-step plan (education → internships → entry-level jobs → career goals).
- o Includes alternate pathways for flexibility.

5. On-going Guidance and Reflection

- o Adapting the plan as interests or industries evolve.
- o Using mentors, coaches, or digital platforms for continuous feedback.

How It Helps Today's Students

Benefit	How It Helps Students
Clarity & Direction	Reduces confusion about “what to do in life”; sets clear goals.
Informed Decisions	Encourages choices based on real data and self-awareness, not peer pressure or trends.
Future-Readiness	Aligns students with future job market needs and technology changes.
Motivation & Focus	Helps students stay motivated when they understand the relevance of studies to real-world goals.
Avoids Wasted Time & Resources	Prevents jumping between courses/majors by planning early.
Confidence Building	Knowing there's a plan increases self-confidence.

Tools and Platforms That Support Career Modelling

- **Online Career Guidance Platforms:** Like *MyNextMove*, *CareerExplorer*, *Univariety*, etc.
- **AI-powered Tools:** Personalized career path suggestions based on data.
- **School/College Career Counseling:** Trained advisors helping with modelling.

Example:

A student interested in **AI and healthcare** might:

1. Identify this hybrid field through self-assessment.
2. Explore roles like *Healthcare Data Scientist* or *Biomedical AI Engineer*.
3. Map required skills: biology, machine learning, data analysis.
4. Plan education: BSc in Biology + online AI certifications.
5. Gain experience: Intern at a health-tech startup.
6. Reassess yearly and adjust the plan.

Final Thought

Career modelling is not about locking students into one path early. It's about giving them a **flexible, informed, and strategic starting point** in a fast-changing world. For today's generation—facing rapid tech changes and job market shifts—it's not just helpful, it's essential.

How to model your career, will be explained in the next edition. Keeping reading.

Celebrating Joy of Success

Sourav Sonkar
MBA (2024-26)

Management Students Placed in

Position :
Sales Engineer Trainee

MoU signed between **Srinath University** & **Wedgewood Pro Skills** for Industrial Training, Campus Placement and Industrial Visit.

Mock GD & PI Session Conducted for Final year Students

Shri Subhadeep Bhadra
(Director, Training & Placement)

Industrial Visit of Chemistry Department

B.Sc. & M.Sc. Chemistry students of **Srinath University** had an enriching visit to **TATA PIGMENTS LTD.**, Jamshedpur on 4th September 2025. During the visit, students learned how liquor effluent from Steel Plants is processed to produce pigments (Red & Yellow). They got hands-on exposure to the Plant area where the actual process is carried out and explored the R&D Laboratory, where they were introduced to the testing of purity in finished products. This visit gave our students a golden opportunity to understand the real-world applications of chemistry in a core chemical processing plant.

INDUSTRIAL VISIT

4TH SEPTEMBER 2025

Bridging Theory with Practice

The **Department of Physics, Srinath University**, organized an industrial visit to **TATA Steel**, Jamshedpur on 4th September 2025 for B.Sc. (Hons.) Physics and M.Sc. Physics students. The day began with an insightful orientation by the **Research Team of TATA Steel**, covering : Company history & legacy Steel manufacturing process Role of research in plant operations

- Visitor safety protocols

Students then explored the processing units, characterization facilities, and quality control labs, witnessing how physics powers the backbone of steel manufacturing. This visit was a valuable exposure, reinforcing classroom concepts with real-world applications, and deepening students' appreciation of physics in industry.

BRIDGING THEORY

4TH SEPTEMBER 2025

BREAKING NEWS

Industrial Visit of Biotechnology Department

Students of the **Biotechnology Department, Srinath University**, visited **Tata Pigments Manufacturing Plant**, Bistupur, Jamshedpur. The visit gave them a first-hand experience of : **Advanced Research**

- Laboratory facilities
- Insights into how a large-scale manufacturing plant operates
- Hands-on practice in quality control of pigment samples

The interactive session with Tata Pigments' scientists proved to be highly motivational and inspiring, sparking curiosity and boosting their critical thinking skills. Such industrial visits bridge the gap between classroom learning and real-world applications, preparing our students for a brighter future.

INDUSTRIAL VISIT

5TH SEPTEMBER 2025

Teachers' Day Celebration at Srinath University!

Srinath University celebrated Teachers' Day with immense joy and gratitude. **Chancellor Mr. Sukhdeo Mahato** and **Trustee Member Mrs. Anita Mahato** handed over special gifts as a token of appreciation to all our dedicated faculty members. The celebration was made even more memorable with the motivational and inspirational words of our respected Chancellor Sir, encouraging teachers to continue shaping young minds and building the future with passion and dedication.

TEACHERS' DAY

5TH SEPTEMBER 2025

Adira AI Training Workshop at Srinath University

The Department of Journalism & Mass Communication successfully organized an AI-driven Adira Workshop, led by Dr. Manish Kumar Jaisal, Head of Journalism & Mass Communication, ITM University Gwalior. Students explored cutting-edge AI tools like Perplexity, Notebook LM, Suno AI & Research Rabbit, gaining valuable insights into how artificial intelligence is revolutionizing research, creativity, and media practices. Guided by Mr. Sanjay Bharti, HoD of Journalism & Mass Communication, the workshop empowered students to embrace the future of journalism with digital readiness, critical thinking, and innovation. This initiative reflects Srinath University's commitment to providing students with practical exposure and industry-oriented skills to thrive in the evolving digital era.

WORKSHOP

6TH SEPTEMBER 2025

Red FM College Ka Tashanbaaz Auditions @ Srinath University

The campus was buzzing with energy today as Red FM's College Ka Tashanbaaz auditions took place at Srinath University! Our talented students showcased their creativity, confidence, and tashan, making it a day full of fun and unforgettable moments. Congratulations to all the enthusiastic participants for their amazing performances. A special congratulations to our winners who represented Srinath University in the Mega Finale!

TASHANBAAZ AUDITIONS

6TH SEPTEMBER 2025

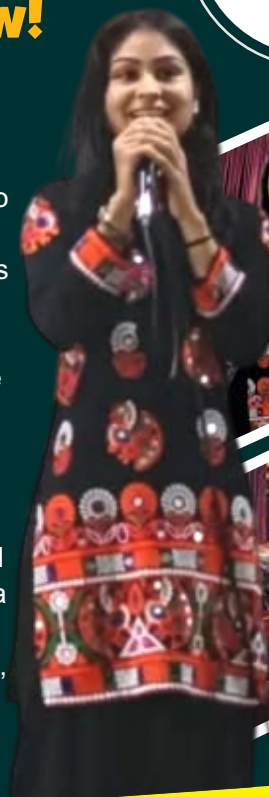

BREAKING NEWS

Awareness for a Better Tomorrow!

Srinath University organized an impactful awareness session led by Ms. Tapsi Upadhyay, Director of MHB NGO, inspiring young minds to take meaningful action. The one-hour program focused on key issues Climate Change, Health Literacy, Youth Empowerment, and Animal Cruelty Awareness emphasizing the importance of sustainability, wellness, leadership, and compassion. Ms. Upadhyay's insightful words encouraged participants to be responsible global citizens. The event concluded with a collective pledge to work towards a healthier, kinder, and greener future, reaffirming the university's commitment to social and environmental consciousness.

2025

Strengthening Youth for the Future

Srinath University takes pride in sharing that our NSS Coordinator, Ms. Shalini Ojha, had a productive meeting with **Hon'ble MP of Jamshedpur, Shri Bidyut Baran Mahato Ji**, to discuss future initiatives and opportunities for NSS volunteers. The discussion focused on empowering youth through community service, leadership development, and nation-building activities. We extend our heartfelt gratitude to the Hon'ble MP for his valuable guidance, encouragement, and continued support in strengthening the role of young volunteers in creating a responsible and progressive society.

HEALTHIER
SOCIETY13TH SEPTEMBER
2025

Knowledge for a Healthier Society

Srinath University proudly acknowledges the efforts of Mr. Manoj Mahato, faculty member from the School of Pharmacy, who conducted an insightful expert session on Tuberculosis at Upgrade High School, Laxmi Nagar, Jamshedpur. The session aimed to raise awareness about the causes, prevention, and treatment of this infectious disease. Such initiatives reflect the university's ongoing commitment to promoting community health, spreading medical awareness, and fostering social responsibility among students and citizens. Through these efforts, **Srinath University** continues to inspire positive change and contribute towards building a healthier and more informed society.

World First Aid Day Celebrations by the Srinath College of Pharmacy

The **Srinath College of Pharmacy, Srinath University**, celebrated **World First Aid Day** with an informative and interactive session conducted by **Dr. Harshit K. Ranjan (BHMS, Burdwan Homoeopathic Medical College & Hospital)**. The session emphasized the importance of first aid and included a practical CPR demonstration, highlighting its role as a vital life-saving skill. Students actively participated and gained essential knowledge to respond effectively in emergencies. The university extends heartfelt gratitude to Dr. Ranjan for his valuable guidance and contribution towards fostering awareness and preparedness among students for a safer and healthier society.

The students of the Wellness Club, **Srinath University**, visited Meherbai Tata Memorial Hospital (MTMH) Jamshedpur, where they interacted with doctors and patients with compassion and care. This meaningful initiative not only raised awareness about health and wellness but also inspired students to embrace empathy, service, and responsibility towards society.

SRI VAANI

Techroot 3.0, the flagship tech fest of **Srinath University**, took place from 18th to 20th September 2025, marking a celebration of innovation and talent. The event saw participation from around 78 colleges and schools, elevating the level of competition and collaboration.

With over 1500 students showcasing their talents in 16 exciting events, **Techroot 3.0** emerged as a platform for creativity, skill development, and knowledge exchange. The grand inauguration of Techroot 3.0 was held in the esteemed presence of our **Hon'ble Chancellor, Vice Chancellor, Registrar, Associate Dean (Academics), Dean of Administration**, and faculty members of the Engineering & IT Departments. **Our Special Guest, Dr. Vinod Belwanshi, Scientist, CSIR-National Metallurgical Laboratory, Jamshedpur**, graced the occasion and inspired young innovators with his presence. Across three days, students competed in a variety of events that tested their technical prowess, innovation, and problem-solving abilities.

From coding marathons to robotics, quizzes to creative design challenges, **Techroot 3.0** offered something for every tech enthusiast. The closing ceremony was equally grand, with **Mr. Kunal Sarangi, EX-MLA (Baharagora) & Member of Public Accounts Committee (PAC)**, the chief guest for the valedictory session, addressing the participants. He lauded the students' efforts and emphasized the importance of such platforms in nurturing the next generation of tech leaders. His insightful words left a lasting impact, motivating the students to continue their pursuit of excellence. Techroot 3.0 was not just a competition but a celebration of learning, networking, and collaboration, successfully positioning **Srinath University** as a hub for technological advancement and student engagement.

Investor Awareness Talk Show for Commerce & Management Students!

The School of Commerce & Management, **Srinath University**, hosted the SMARTs Investor Awareness Program, in collaboration with SEBI (Securities and Exchange Board of India) and MCX (Multi Commodity Exchange of India Ltd.). The interactive session & talk show equipped our students with:

- Insights into safe and smart investment practices
- Awareness of financial markets & trading
- The importance of informed decision-making for future investors. Such initiatives help our students bridge the gap between academics and the real corporate world, preparing them as future-ready professionals and responsible investors.

Triumphant Institute of Management Education Pvt.Ltd.

Strategic Collaboration between Srinath University and T.I.M.E. Jamshedpur

Srinath University proudly announces the signing of a Memorandum of Understanding (MoU) with T.I.M.E. Jamshedpur, one of the most reputed institutes in India for competitive exam coaching. This collaboration signifies a major step toward enhancing the academic and professional development of our students by providing them access to structured, high-quality training for various national-level competitive examinations.

Through this partnership, students of Srinath University will receive specialized guidance and training for exams such as CAT, MAT, Banking, SSC, and other government or corporate entrance tests. This initiative aims to integrate academic learning with practical skill development, ensuring that students are not only academically strong but also well-prepared to face competitive challenges in the job market.

The MoU emphasizes knowledge exchange, where the expertise of T.I.M.E.'s experienced faculty will be combined with the university's academic resources to deliver value-driven education. Students will benefit from regular workshops, mock tests, doubt-solving sessions, and career counselling, helping them build confidence, clarity, and competence.

needs by equipping students with analytical thinking, reasoning ability, communication proficiency, and interview readiness.

Key Advantages of the Collaboration:

- Comprehensive and structured preparation for competitive examinations.
- Integration of academic learning with industry-oriented skill development.
- Enhanced employability through focused training and expert mentorship.
- Regular mock tests, workshops, and progress assessments to track growth.
- Access to expert faculty and curated study materials from T.I.M.E. professionals.
- Knowledge sharing that aligns university education with professional expectations.
- Empowering students to excel in competitive environments and build successful careers.

This collaboration reflects **Srinath University's** commitment to holistic education, ensuring students are well-prepared, confident, and career-ready in an increasingly competitive world.
